# ALFA1 GI Military Water Filter Canteen

Eco Friendly, ALFA1 GI Military Water Filter Canteen is designed and manufactured with the use of common advanced NANO filter cartridge technology to provide instant filtered fresh healthy water supply anytime anywhere. ALFA1 GI Military Water Filter Canteen is available in 1 Quart capacities in accordance with USDOD Military Specifications. Canteen is constructed of durable USFDA Grade composite plastic resins and materials with a unique screw-cap enclosure designed for positioning and retaining patented ALFA1 Life Saver NANO Cartridge System with secure threading and sealing with USFDA Silicone O-Rings/Gaskets. This allows dispensing the fresh filtered healthy water on demand anywhere anytime. Our patented ALFA1 Life Saver NANO Water Filter Cartridge is designed to provide fresh filtered, clean water free of contaminants up to 500 liters per Cartridge. This specially developed patented portable water purification system ensures an instant flow of freshly filtered healthy drinking water, free from suspended particles, chemical, impurities, bacteria, heavy metals, organic compounds, etc. without use of chemicals or power.

Ensure peace of mind when travelling, camping, hiking, hunting, fishing and very effective for all types of disaster aid and military operations for instant supply of freshly filtered water when needed - anywhere, anytime... Our patented ALFA1 GI Military Water Filter Canteen remove 99.99% of bacteria and protozoa, including Salmonella, E-coli, Giardia, Cryptosporidium, heavy metals, VOC's, etc. Most advanced Patented Hollow Fiber Membranes proven in the health care industry is used in our NANO Filter Cartridge designed to filter water from the nearest stream, lake or potable water anywhere anytime. It's an instant filter, the fastest way to filter, no power required, never pump and without use of any chemicals.

It's a compact Eco Friendly ultra-light system solution to provide freshly filtered clean healthy drinking water in the field, travel, home, office anywhere anytime. Don't bother carrying heavy water bottles & save Planet Earth with reusable ALFA1 GI Water Filter Canteen – Simply drink from the nearest river or lake, or any potable water source.

**WARNING:** Do not drink the first canteen fill.

**WARNING:** Change the Filter cartridge after up to 500 Canteen Fills. Cartridge life cycles up to 500 may vary depending on the quality of water used for filtration.

*NANO Water Filter Cartridge uses advanced Hollow Fiber Ultra Filtration Membranes that requires mild compression on the canteen body with simultaneous suction to increase the flow rate according to individual needs. For high flow rate, canteen can be used without cartridge with available safe healthy water at home & office.*
